HEALTH, SAFETY & THE ENVIRONMENT POLICY

BRIT's policy on Health, Safety and the Environment is:
"To ensure Health and Safety to all our workers
and to protect Environment against industrial pollution"

The principles on which we operate our facilities and conduct our business are:

- We comply with all applicable Health, Safety and Environmental laws and regulations.
- We, at all levels, attach the greatest importance to Health, Safety and the protection of environment as well as impart necessary training.
- We recognize that every employee can contribute for Health and Safety practices.
- We all continuously strive towards minimizing all forms of pollution and maintain the safe environmental friendly atmosphere in all our manufacturing facilities.
- We shall employ all appropriate methods for periodical assessment on Health, Safety and pollution control and take corrective actions as required.
